## Lecture Offerings

### WNL: Within Normal Limit or a Dangerous Assumption?

**WITHIN NORMAL LIMITS...**a very bold and broad sweeping statement that distinguishes between health and disease and in some cases, an outcome of life vs. death. The complexities of clinical presentation do not always make this an easy task. Through a guided visual journey of inspiring and moving oral/oropharyngeal cancer survivors, learn the subtle life-saving symptoms and screening techniques that will increase our opportunity to save a life.

### First on the Scene!

By definition a first responder is "a person with specialized training who is among the first to arrive and provide assistance at the scene". The dental hygienist is a 'first responder' to the oral cavity with our profession being optimally situated at the portal of entry and the gateway to systemic health. Our actions and assessment as a critical stakeholder dictate treatment outcomes, and strongly influence both the quality and quantity of life of every patient seated in our treatment room!

### It's Showtime! The Life of a Dental Professional

An engaging, interactive presentation designed to explore the critical topic of self-preservation and recognition of the subtle signs of burnout syndrome. Attendees will have the opportunity to customize their own wellness journey, gaining practical strategies and insights to maintain balance, prevent burnout, and prioritize their well-being in their chosen profession. Don't miss this empowering session to safeguard your professional satisfaction and personal fulfillment.
